Elias Francis

Sidon, South Government, Lebanon | +96181428780 | eliasfrancis00@gmail.com

Objective

Motivated Full Stack Developer with hands-on experience in web development, DevOps, and scalable application design. Skilled in React, JavaScript, CI/CD pipelines, and database management, with a passion for creating innovative and efficient solutions. Seeking a role to leverage technical expertise and contribute to impactful projects in a collaborative environment.

Education

MASTERS DEGREE, INFORMATION SYSTEM | JANUARY 2026 | LEBANESE UNIVERSITY

BACHELORS DEGREE, BUSINESS COMPUTER | AUGUST 2023 | LEBANESE UNIVERSITY

Experience

PRODUCT DEVELOPER INTERN | INNOBEE | PART TIME, REMOTE | NOVEMBER 2024 – JANUARY 2025

- Designed and implemented responsive front-end pages using React and JavaScript.
- Ensured UI/UX consistency and optimized performance, improving site load times by 15%.
- Utilized Git for version control and conducted code reviews to maintain high-quality standards.
- Conducted testing and debugging to optimize usability and performance.
- Collaborated with cross-functional teams to design and deliver new features.

DEVOPS INTERN | SWORD LEBANON | PART TIME, REMOTE | MAY 2022 – JULY 2022

- Configured and deployed Linux servers on AWS to enable CI/CD pipelines.
- Automated deployment workflows, reducing manual efforts by 20%.
- Collaborated with developers to implement and test scalable systems.
- Installed and managed tools for seamless CI/CD processes.

IT INTERN | NESSL| FULL TIME, RABIEH | NOV 2020 – FEB 2021

- Assisted the IT team in developing research materials and contributing to team projects, including technology assessment and management services.
- Resolved hardware, software, and network issues for over 30 users.
- Supported technology rollouts and provided technical support during events.
- Analyzed and addressed organizational technology needs, reducing downtime by 10%.
- Installed, modified, and repaired software and hardware, providing technical support both remotely and on-site.
- Managed program errors through effective troubleshooting, ensuring minimal system downtime.
